SUMMARY

Senior UI/UX Designer with 20+ years across enterprise SaaS, CRM, and data-heavy platforms. Five years embedded at LivePerson as the primary design contributor - keeping four engineering teams supplied 2-3 weeks ahead, maintaining three coexisting design systems, and shipping 20+ features without design becoming a bottleneck. Rated "Exceeded Expectations" across every annual review. Alongside IC work, led design community hiring and mentoring for up to 10 designers. AI tools - Claude Code, Figma AI - in active daily use.

WORK EXPERIENCE

Lead UI/UX Designer (IC)

LivePerson • via Master of Code Global, 2020 – 2025

Embedded full-time at LivePerson as their primary design contributor, contracted through Master of Code Global. Kept 3-4 engineering teams supplied with design-ready work 2-3 weeks ahead at all times, across distributed teams in Australia, India, Germany, France, Eastern Europe, the UK, and the US.

- Contributed to three parallel design systems across web and mobile
- Developed 20+ new features for internal and client use from scratch
- Created an icon set of 1000+ icons in 3 sizes and 2 styles, ensuring consistency across the platform
- Designed AI Studio - a platform for configuring and testing enterprise AI chat agents, including the Synthetic Customers module for AI-simulated persona testing
- Designed interfaces for telephony integrations with Amazon Connect, Cisco, and Avaya
- Maintained WCAG 2.1 accessibility compliance throughout
- Consistently rated "Exceeded Expectations" across annual performance reviews

Senior UI/UX Designer, Design Community Lead

Master of Code Global, 2020 – 2026

- Led design community across the company: hiring (10 designers over the period), onboarding, mentoring, and facilitating design skill-building initiatives

- Conducted performance reviews in partnership with People Partner for direct reports
- Ran Design Strategy Workshop with product stakeholders to align design direction
- Maintained hands-on IC output across B2B SaaS, CRM, and dashboard projects for US and EU clients while carrying full community responsibilities

UI/UX Designer

Master of Code Global, 2015 – 2020

Designed web and mobile products across healthcare, retail, sports, and enterprise SaaS domains for US and EU clients.

Web Designer

Master of Code Global, 2007 – 2015

SELECTED PROJECTS

Healthcare Asset Management SaaS

Full product suite designed from scratch for a hospital network of ~20 hospitals - dashboards, admin panel, and a field technician mobile app. Real-time analytics with role-based data visualizations. Led migration from Photoshop to Figma design system.

Political CRM Platform (NDA)

Designed full platform suite (web, mobile app, CRM) over 3+ years. Later, prototyped AI-powered page builder in 12 hours across 3 environments (Figma, Google AI Studio, Claude Code).

NBA Team Websites (NDA)

UX audit and redesign for 2 top NBA team websites. Defined UX guidelines and user flows within NBA platform constraints; handed off to a junior designer I was mentoring at the time.

SKILLS

Design

UI/UX design, product design, design systems (tokens, variables, components), information architecture, wireframing, high-fidelity prototyping, WCAG accessibility

Tools

Figma (expert), Adobe Photoshop, Illustrator, Sketch, HTML/CSS (working knowledge)

AI tools

Claude Code, Figma AI, Google AI Studio - active use for prototyping, ideation, and validation

Domains

Enterprise SaaS, CRM/CMS, healthcare, data dashboards, mobile (iOS/Android), web

Leadership

Team hiring and onboarding, regular 1:1s, mentoring, performance reviews, design strategy workshops

EDUCATION & COURSES

East Ukrainian National University, 1997 – 2002

Specialist degree, Chemical Technology and Computer Engineering

Projector University - Design Management, 2025

SKVOT - Art Direction, 2019

LANGUAGES

English – Upper-Intermediate (B2)

Ukrainian – Native
